OBJECTIVE

A web development position in the computer industry where my expertise in creativity and problem-solving would be needed.

SUMMARY OF SKILLS

Intermediate web developer and designer. I am self-motivated and can easily adapt to new situations and problems that can arise during the web development life cycle. I am very skilled with MS Word and GitHub's Atom text editor. You can find my personal website at www.ZacharySurgett.com.

- Especially skilled at HTML, CSS, JavaScript, and jQuery.
- A talent for critical thinking and problem-solving.
- A skill for learning new ways of thinking and applications very quickly and efficiently.

WORK EXPERIENCE

Freelance Web Developer, Roswell, NM   May 2015 to present

- Used HTML, CSS, and JavaScript to create creative websites for a few small businesses.
- Learned the value of self-motivation. It has pushed me to help meet my deadlines and not procrastinate on boring or mindless tasks.

Washington State Bar Association, Seattle, WA   June to August of 2013
Extern

- Taught how an office runs and the daily roles of an I.T. team.
- Created a functioning web page that validated user input for a sign-up form.
